HONORABLE CITY COUNCIL

RE: **RECOMMENDATION FOR DEFERRAL**
ADDRESS: 3408 Townsend
NAME: Detroit Land Bank Authority
Demolition Ordered: October 22, 2012

In response to the request for a deferral of the demolition order on the property noted above, the Buildings, Safety Engineering and Environmental Department (BSEED) submits the following information:

A special inspection conducted on May 13, 2019 revealed that the building is secured and appears to be sound and repairable. The owner has paid all taxes and is current. The proposed use of the property is owner's use and occupancy. This is the 1st deferral request for this property.

Therefore, we respectfully recommended that the demolition order be deferred for a period of six months subject to the following conditions:

1. A permit for rehabilitation work shall be applied for within ten (10) business days from the date of the City Council decision.
2. BSEED will schedule a Progress Inspection within forty-five (45) calendar days from the date of the rehabilitation permit to determine whether substantial progress has been made. Thereafter, the owner must submit to BSEED detailed inspection reports, with photos showing evidence of the work completed, every forty-five (45) calendar days, for the duration of the rehabilitation work, to demonstrate that substantial progress has been made during the approved time frame for rehabilitation.
3. The building shall have all imminently hazardous conditions immediately corrected, be maintained, and securely barricaded until rehabilitation is complete. Rehabilitation work is to be completed within six (6) months, at which time the owner will obtain one of the following from this department:
 - Certificate of Acceptance related to building permits
 - Certificate of Approval as a result of a Housing Inspection
 - Certificate of Compliance, required for all rental properties
4. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).
5. The yards shall be maintained clear of overgrown vegetation, weeds, junk and debris at all times.
6. Prior to seeking a permit extension, the owner must contact BSEED and request to extend the deferral period.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been satisfied and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not followed, the deferral may be rescinded by the City Council at any time and we may proceed with demolition without further notice. In addition, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Any request exceeding three (3) deferrals must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted,

Honorable City Council:

RE: Petition No. 453 — Straight Gate International Church, request to vacate portions of Prairie Street and outright vacate portions of a public alley within the block bounded by Grand River Avenue, the I-96 Service Drive and Burnette Street.

Petition No. 453 — Giffels Webster on behalf of Straight Gate International Church, request to vacate and convert to easement Prairie Avenue, 50 feet wide, between Jeffries Freeway west bound service drive and Grand River Avenue, 100 feet wide. The request is also to vacate outright the east-west alley, 18 feet wide, in the block of Grand River Avenue, 100 feet wide, Jeffries Freeway west bound service drive, and Prairie Avenue, 50 feet wide.

The petition was referred to the City Engineering Division – DPW for investigation (utility review) and report. This is our report.

The request is being made to consolidate land parcels for a future development.

The request was approved by the Solid Waste Division – DPW, and Traffic Engineering Division – DPW, and City Engineering - DPW.

Detroit Water and Sewerage Department (DWSD) has no objection to the conversion to easement and outright vacation. The specific DWSD provisions for easements and vacations are included in the resolution.

DTE Energy reports having services in the area. The petitioner has made satisfactory arrangements with DTE Energy to remove three tangent poles, install one anchor guy and miscellaneous associated work. Provision to maintain access to DTE facilities in the easement area; and to pay for the removal work for the vacation is a part of the resolution.

The Detroit Fire Department (DFD) approves provided access is maintained to any buildings and fire department connections. A provision for DFD access is a part of the resolution.

All other involved City Departments, and privately owned utility companies have reported no objections to the outright vacation of the public right-of-way (the alley), and the conversion of the public right-of-way (Prairie Avenue) into a private easement for public utilities. Provisions protecting utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

Petition No. 644 – Michigan War of 1812 Bicentennial Commission, request for an encroachment with a Historic Marker on the median of Washington Boulevard, 195 feet wide, 134 feet North of Michigan Avenue, 100 feet wide (21 feet north of the base of the Macomb Monument).

The petition was referred to the City Engineering Division – DPW for investigation and report. This is our report.

The request was approved by the Solid Waste Division – DPW, and City Engineering Division – DPW, and Traffic Engineering Division – DPW (TED).

Detroit Water and Sewerage Department (DWSD) reports being involved, but they have no objection provided the DWSD encroachment provisions are followed. The DWSD provisions have been made a part of the resolution.

All other involved City Departments, including the Public Lighting Authority and Public Lighting Department; also privately owned utility companies have reported no objections to the encroachment. Provisions protecting all utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

RE: **Questions related to Contract No. 6000772 - Providing Software to Manage Permits for
Departments that issue Blight and other Environmental Tickets**

1. If the Inspectors and their duties for investigations relative to Blight moved from DPW to BSEED, did the monies for those investigations also move from DPW to BSEED? (Salary, license costs and any other monies attached to the positions which moved)
2. The cost of new licenses that were discussed at the Public health and Safety Steering Committee on Monday, May 20, 2019, described the need to have to purchase them under the existing contract for the Investigators of Blight that were moved to BSEED. Did the city also purchase licenses for a software system while the investigators of blight were assigned to DPW?
3. If so, what system?
4. If the system is a different system other than *Accela*, (BSEED contract)? Is that system still in use at DPW?
5. Did the City purchase licenses for the DPW system (if different from *Accela*)?
6. When do the DPW and/ or BSEED licenses for Inspectors expire, respectfully?
